

KFB Partners Association

Keep Fremont Beautiful is dedicated to improving everyone's waste handling practices and engaging our citizens to take greater responsibility for improving the community environment. As a 501 (c)(3) non-profit organization, Keep Fremont Beautiful is soliciting community donations from individuals, civic organizations and businesses – anyone may join.

How your contribution will impact our community:

Membership Contributions support environmental education opportunities such as the KFB Eco-fair which reaches over 500 local and Fremont area 4th grade students and adults each year.

Memberships provide funding for print materials and advertising to help create greater public awareness concerning recycling and proper waste disposal opportunities.

Your KFB Partners Association Membership shows community support and provides a cash match when applying for public education grant funds from the Nebraska Department of Environmental Quality.
